Such a feeling's coming over me (1)
 There is wonder in most everything I see
 Not a cloud in the sky (2)
 Got the sun in my eyes (3)
 And I won't be surprised if it's a dream

Everything I want the world to be
 Is now coming true especially for me
 And the reason is clear
 It's because you are here
 You're the nearest thing to heaven that I've seen

(Chorus:) I'm on top of the world (4) looking down on
 creation
 And the only explanation I can find
 Is the love that I've found ever since you've been around
 Your love's put me at the top of the world (5)

Something in the wind (6) has learned my name
 And it's telling me that things are not the same
In the leaves (7) on the trees (8) and the touch of the
breeze (9)
 There's a pleasing sense of happiness for me

There is only one wish on my mind (10)
 When this day is through I hope that I will find
 That tomorrow will be just the same for you and me
 All I need will be mine if you are here

Eva : Yes. My sister took the water diet last year.

Terry : Really? Tell me what it is!

Eva : Well actually, the diet involves drinking 8 cups of cold water everyday.

Terry : 8 cups of cold water?

Eva : Right. And it must be at regular intervals throughout the day. Drink a glass of water before each meal to suppress your appetite.

Terry : Wow. That sounds great.

Eva : It is. If I were you, I would try the diet. You know, doing this will help you get into the habit of limiting the portions of food you consume during each meal.

Terry : You mean by drinking water, we will feel full before a meal, thus helping us consume less calories.

Eva : But keep in mind that this is not a water-only diet. Water-only diet can actually be quite dangerous if done for too long a period of time.

Terry : Really?

Eva : Your body needs nutrients to stay healthy and maintain a strong metabolism. If you drink only water for more than a couple of days, when you start eating again you run the risk of gaining even more weight because your metabolism will have slowed tremendously.

Terry : If you were in my position, would you try this diet?

Eva : Why not? My sister took the water diet last year. There was slight decrease in her weight after a week of dieting.

Terry : Thanks for your advice.

Eva : That's okay.

5. Listen to a monologue and then correct each wrong statement below.

Good morning listeners. I'm very happy to accompany you for 30 minutes and discuss the pros and cons of infotainment

on TV. Do you like news about the personal life of celebrities and enjoy infotainment on TV? Even though many people condemn infotainment for the information reported, high-rating infotainment on TV provides a means of livelihood for many, both infotainment journalists and celebrities.

I interviewed 20 listeners by phone about the topic. Ten interviewees think that infotainment may encourage celebrities to perform positive actions in public. Infotainment doesn't always air celebrities' dirty laundry. Besides, the information is based on facts. Journalists, on these programs, always try to find the truth behind the gossip. Celebrities need such programs to give them a higher profile. What I mean is that these programs give room for mutual needs between reporters and celebrities. Reporters need their stories, while celebrities need fame. Usually reporters start a story based on a 'signal' from the celebrity. For example, gossip about someone cheating on their spouse and has caused curiosity among the public. There is a saying 'where there's smoke, there's fire.'

On the other hand, 10 interviewees stated that information reported on infotainment is about slandering people or talking about the bad aspects of their personal lives. Sometimes the programs talk excessively about other peoples' personal lives, like divorce and cheating on a spouse. Sometimes the programs report news without seeking the truth or confirming the information.

So far, infotainment has become a dilemma for some viewers. On one hand, these programs can run stories on how celebrities have built their careers and how they feel about being famous, but, on the other hand, these programs can also bring terrible consequences, especially related to people's personal lives. Well listeners, I'm waiting for other views about infotainment. Just call me at 021 844 8895.

Activity 26

Listen to the dialogue and practice it with your friends.

Host : Now, what do you think about this? Calculators will be banned from schools. Can you believe it? students will do math, physics, and chemistry without calculators. Will students without calculators be smarter? Can you imagine math class without your calculator? So what do you think? Phone me now on 021 844 8895. Hello?

Caller 1 : Hello, Sandra? Look, I like the idea that kids without calculators will be smarter. If you're using a calculator all your life, it means you cheat yourself. You're not really learning because the calculator does it for you! A person in my class last year snuck a calculator with him and about a week away from school ending, the teacher found it in a drawer of his desk and took it from him. Guess what? He didn't know how to do ant math because he used to sit at the back and use a calculator. He did not pass the 6th grade! I do believe the idea of banning calculators from the classrooms will be the best solution.

Host : I see. You believe that kids with calculators aren't really smart. When I was in 10th grade, I needed a special type of calculator called a graphic calculator. It is used in a hard type of math called trigonometry. This kind of math needs a calculator. I relied on it for trigonometry, but I preferred to use a pencil and paper for all the other types of math. So I can see why you have that opinion. OK, 021 844 8895 is my number. Hello?

Caller 2 : Hello Sandra, I don't think it is a good idea, if students' goal is to get a job, they should probably learn some math skills without calculator. But if a teacher's goal is for students to be able to cope with mathematical problems in our society, most of the course should be taught with the assistance of calculators. I hope very strongly that schools will discuss the idea of banning calculators from classrooms.

Host : Let me say that you think the use of calculators in class depends on the goal of the math class.

Caller 2 : You're right. I doubt that kids without calculators will be smarter. Although a calculator works faster than adding things up in your brain, the person using it still has to figure out the formula for them.

A close friend is a person to share a lot of things with. **Even though** you can talk about a lot of things, you can't share all the things with your close friend due to a lack of time. Monologue 1

The story began when a young man named Zainuddin went to West Sumatra to find the birthplace of his father and deepen his religiosity. Zainuddin's arrival was not welcomed by the villagers due to his family background, but Zainuddin stayed in the village. His meeting with Hayati made him more determined to stay. Of course, they were helpless to face the obstacles to their romance. Zainuddin was forced to leave the village but Zainuddin and Hayati promised to love each other. The problem became worse when a wealthy man named Aziz proposed to Hayati. Hayati accepted the proposal and broke her promise to Zainuddin. Then, Zainuddin

went to Java. With his talent as a writer, Zainuddin gained fame as well as fortune. Meanwhile, destiny made Zainuddin meet Hayati again. Because of gambling, Aziz lost his money and properties. Aziz and Hayati came to Zainuddin's big house to borrow some money and ask for a place to live temporarily. Zainudin granted the requests. This made Aziz feel ashamed and commit suicide and give up on Hayati. Although Zainudin still loved Hayati, he refused to make up with her because she had broken their promise. Zainudin sent her back to Padang on a royal ship called Van Der Wijck. Unfortunately, on the way to Padang, the ship sank together with Hayati, which left Zainuddin with the pain of Hayati's death. He lived the rest of his life in deep remorse.

Monologue 2

The story begins in a land divided by age-old hatred between humans and fairies. A powerful young fairy, with a good heart, was befriended by a human boy, Stefan. The fairy loved him, while Stefan was enticed by power and ambition. Stefan eventually betrayed her to become king.

Hell hath no fury like a fairy scorned, and so the good fairy turned to evil and placed a curse on King Stefan's infant daughter Aurora. Strangely, the fairy could not hate Princess Aurora, so she became her protector. Everything failed to remove the curse, except the kiss of the fairy. The love of the fairy herself also healed her hatred.

Monologue 3

The story begins after an epic battle that left a great city ruined, but with the world saved. As humanity picked up the pieces, a shadowy group revealed itself in an attempt to control the direction of history, while an ancient, powerful new menace set the Earth in its crosshairs. With help from a new cast of humans, Optimus Prime and the Autobots rose to meet their most fearsome challenge yet. In an incredible adventure, they were swept up in a war of good and evil, ultimately leading to a climactic battle throughout the world.

Monologue 4:

The story revolves around the relationship of Min Joon, a man who came to the Earth from outer space 400 years ago, and Song Yi, a famous actress with a hard character, who resembled a girl whom Min Joon had met in the past. They became neighbours. Min Joon, who felt a mystical connection between Song Yi and the girl he met 400 years ago, developed romantic feelings towards Song Yi. But, he tried to deny his feelings because he did not believe in love. Later, he protected Song Yi from a man who tried to kill her. During his last three months on Earth, Min Joon began to doubt about his departure from Earth. He took advice from his only friend, a lawyer whom he had saved 30 years ago. Meanwhile, Song Yi was in love with the man who had saved her twelve years ago, but she could not even remember his face. Ironically, this mysterious man appeared to be Min Joon.

3. Listen to speakers talking about some movies. Do the people like the movie they have seen? Write your argument to strengthen the answers.

Film 1	Like	Dislike	Neutral	I'm going to love this drama
Film 2	Like	Dislike	Neutral	_____
Film 3	Like	Dislike	Neutral	"Why can't you make a better movie?" The plot is bewildering and incoherent. It has an appalling dialogue. It is hard to follow and with very little humor.
Film 4	Like	Dislike	Neutral	This is a wonderful and a very well made high budgeted Indonesian movie with such a heart grabbing story

Listening script:

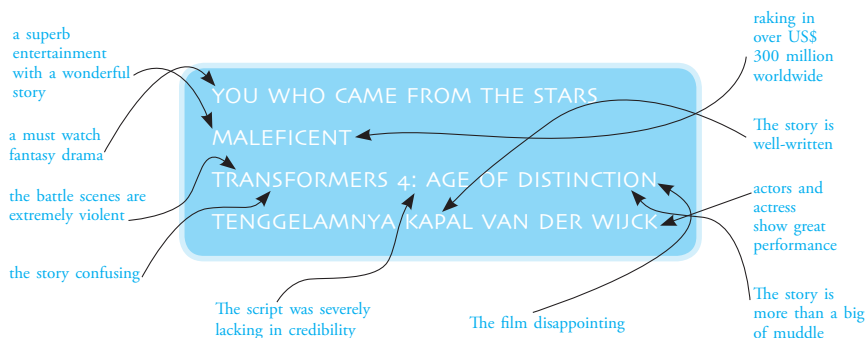

First film: The moment I saw this K-drama on TV, I could tell that I liked this drama from its cinematic opening, its mournful piano score, and the chilly, nonchalant male lead. The drama is just what I'd been yearning for.

Second film: This is a film of a Hollywood story-telling cliché. Disney's live-action fairy tale, re-imagining Maleficent, fails to live up to its potential. But that doesn't appear likely to harm its box-office performance.

Third film: The fourth Transformers movie hit cinemas last week and has been making a killing at the box office. If I could ask the film director a question, it would be, "Why can't you make a better movie?" The plot is bewildering and incoherent. It has an appalling dialogue. It is hard to follow and has very little humour.

Fourth film: This is a wonderful and a very well-made, high-budget Indonesian movie with such a heart grabbing story. The movie is a real tear-jerker with so many heartbreaking moments. Sunil Soraya did an excellent job as director. The acting and the characterization are all outstanding.

DAVID'S STATEMENTS	CORREY'S EXPERIENCES
'It's unbelievable that I was chosen as the singer of the official anthem of 2014 FIFA World Cup which is held in my home country.'	Being the singer of 2014 World Cup anthem is like a miracle for Correy.
'For the success of this project, these last few weeks I haven't been sleeping much.'	The tour for the global concerts of the World Cup jingle keeps Correy very busy.
'The lyrics remind me to the ups and downs that I've overcome so far. And I believe that everyone will feel the pain, struggle, and joy of being the true of me.'	Correy has struggled a lot to achieve his success.

Run like you're born to fly
 Live like you'll never die
 Beranilah bermimpi
 Menggapai semua cita

We are drawn by the rhythms
 That beat through our hearts
 Saat kita bersama
 Tunjukkan semangatmu
 The world is ours
 Ooo oh oo o ooh o o o oo
 Seven billion starts
 Ooo oh oo o ooh o o o oo
 The world dunia the world
 Dunia kita
 Light up the world
 Light up the world
 Sign out your battle cry
 Under the stadium sky
 Walau pun jarak terpisah
 Di hati tetap satu rasa
 You can stand on my shoulders
 And raise up your arms
 Saat kita bersama
 Kita terangi dunia
 Dunia kita
 Ooo oh oo o ooh o o o oo
 tujuh milyar hingga
 Ooo oh oo o ooh o o o oo
 The world dunia The world
 Dunia kita
 Light up the world everybody
 Light up the world to do mundo
 Light up the world everybody
 Pra Batucar, Pra Batucar
 The world is ours

 Dunia kita
